

## Scope

- Area of application [Freeway, Highway, Arterial]
- Type of application [ATMS, ATIS]

## Conceptual Specification

- Type of prediction [Horizon, Step]
- Traffic parameters [Flow, Speed, Occupancy, Time, Other]

## Model

- Methodology [Parametric, Non-parametric, Hybrid]
- Type of output data [Multivariate, Multiple steps ahead predictions]
- Type of input data [Multiple parameters, Temporal-spatial relationships]
- Data quality
